December 5, 1984.

Dear *Don* ;

Please find enclosed a copy of the proposal to re-establish a spawning population of walleyes in the Shebeshekong River. Please pass any comments you might have back to me.

I will ask MNR to comment also. Then we have to examine the actual areas where we will build the spawning sites for the walleyes and estimate the amount of material needed. Next we must draw up a detailed plan of action that can be used to apply for assistance under the Community Fisheries Involvement Program, (CFIP). If our project is approved we can proceed to do the actual work.

Yours truly

Bid

W. A. Davis.
